CBD OIL

Pre dried hemp biomass is put through a traditional CO2 extraction process. By doing so, all naturally occurring cannabinoids and terpenes are being preserved, also known as full spectrum CBD oil. You can choose from the black or gold CBD oil in different strengths, and packaging sizes. It's possible to deliver in prepacked product or bulk.

CBD CAPSULES

For the customer convenience our full spectrum CBD oils are also available in a hard or softgel capsules. Ideal for people who find the taste of the oil unpleasant, or just prefer the practicality of a capsule more pleasant.
